Meets or exceeds applicable  
safety standards.

Read all instructions before assembling and using the product. Always read and follow assembly instructions for each product use mode (bedside sleeper & bassinet).

### IMPORTANT! Keep instructions for future use.

#### ⚠️ WARNING:

• **Failure to follow these warnings and the instructions could result in serious injury or death.**  
**FALL HAZARD** - A bedside sleeper is designed to provide a sleeping area. To help prevent falls, do not use this product when the infant begins to push up on hands and knees or has reached 20lbs (9.1kg) maximum weight or approximately 5 months of age, whichever comes first. Move your child to another sleeping product when your child reaches this stage.

## SUFFOCATION HAZARD Infants have suffocated:

- In gaps between extra padding and side of the bassinet, and
- On soft bedding

Use only the pad provided by manufacturer.

**NEVER** add a pillow, comforter, or another mattress for padding.

• To reduce the risk of **SIDS**, pediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician. • If a sheet is used with the pad, use only the one provided by the bassinet manufacturer or one specifically designed to fit the dimension of the bassinet mattress. • Strings can cause strangulation! Do not place items with a string around a child's neck, such as hood strings or pacifier cords. Do not suspend strings over a bassinet or attach strings to toys. • Assemble product according to manufacturer's instructions for ANY use mode—bedside sleeper as well as the bassinet or both. • This bedside sleeper is designed for use only with adult beds that are between 20.5 and 29 inches from floor to top of adult mattress. Only adult beds with bottom clearance at least 3.5" in depth and 4" in height can be used with this product.

**ENTRAPMENT HAZARD** - To prevent death from entrapment, bedside sleeper must be properly secured to adult bed using the attachment system. • There must be no more than 1/2 in. (13 mm) gap between bedside sleeper and adult bed. • Check tightness before each use by pulling bedside sleeper in a direction away from adult bed. • If gap exceeds 1/2 in. (13 mm), **DO NOT** use product. Do not fill the gap with pillows, blankets or other items that are suffocation hazards. • **Always** read and follow assembly instructions for each product use mode (bedside sleeper & bassinet). • **Always** use ALL required parts for each use mode. Check instruction manual for a list of required parts. Periodically check product for loose, damaged, or missing parts. • The attachment system must always be used in bedside sleeper mode. • To avoid death from the infant's neck being caught on the top rail on the side that is next to the adult bed, the top of door, in down position, must be no higher than the adult bed mattress. **IMPORTANT:** Refer to Bedside Sleeper Mode step 1. • Prevent possible suffocation or entanglement. Never use mattress sheet unless it fits securely on mattress. • Do not use this product if you cannot exactly follow the instructions that come with it. • Do not use this product for a child who can roll over or who has reached 20 lbs (9.1 kg) weight limit. • Do not place any cord, strap or similar item in or near this product that could become wrapped around a child's neck. • Do not place this product near a window or patio door where a child could reach the cord of a blind or curtain and be strangled. • Check this product regularly before using it, and do not use it if any part is loose or missing or if there are any signs of damage. Do not substitute parts. Contact Skip Hop if replacement parts or additional instructions are needed. • Children can suffocate on soft bedding. Do not place pillows, comforters or soft mattresses in this product. • Ensure that the sides of this product are properly latched or locked in the appropriate position when a child is left unattended in it. • Use only the mattress supplied by the manufacturer with this product. Do not add any additional mattress to this product.

NEVER USE THIS PRODUCT IN BEDSIDE SLEEPER MODE WITHOUT THE BEDSTRAPS SECURELY ATTACHED TO THE ADULT BED

ACCEPTABLE BED FRAME IN-LINE

UNACCEPTABLE BED, MATTRESS, BOXSPRING & FRAME NOT IN-LINE

#### CONTENTS:

- 1 Sleeper frame with cover
- 2 Sleeper frame bottom bar
- 3 Mattress board
- 4 Mattress with sheet
- 5 Legs (x2)
- 6 Crossbar
- 7 Bed Straps (x2)
- 8 Screws (x4)
- 9 Wide Head Screws (x2)

Phillips screwdriver required, not included

DO NOT use bedside sleeper if any parts are missing, damaged, or broken. Contact Skip Hop for replacement parts and instructional literature if needed. DO NOT substitute parts.

#### CLEANING & CARE:

**Mattress Pad and Mesh Cover:** Spot clean only. Do not submerge in water. Note: Cover is nonremovable.

**Mattress Sheet:** Wash thoroughly before first use. Machine wash cold, permanent press. No bleach. Tumble dry low. Iron on low heat. Do not dry clean.

#### ASSEMBLING THE BASSINET:

Adult assembly required.

1. Attach CROSSBAR to LEGS by pushing the button and sliding in place. You will hear a "click" sound when they are locked.

2. Place SLEEPER FRAME upside down on the ground.

3. Open SLEEPER FRAME, exposing two plastic joints on each end of the frame.

4. Insert LEGS by pushing the button and sliding in place. You will hear a "click" sound, signaling the legs are securely locked.

**STOP** Make sure to check LEGS are secured to SLEEPER FRAME before proceeding to next step.

5. Rotate the bar up and insert ends into posts on LEGS.

6. Insert SLEEPER FRAME BOTTOM BAR into the remaining side posts on LEGS.

⚠️ Make sure snaps are facing upward.

7. Insert and tighten 4x SCREWS.

8. Slide MATTRESS BOARD in between cover and metal frame.

⚠️ Make sure plastic guides on MATTRESS BOARD are facing down.

9. Make sure hook & loop strip (near door) is not trapped under MATTRESS BOARD.

10. Secure MATTRESS BOARD with two WIDE HEAD SCREWS.

11. Pull fabric cover over the lower edges of the frame.

12. Pull through and connect 4 snaps under the MATTRESS BOARD.

13. Pull fabric cover over lower edge of the frame, secure the final snap, and attach 2 hook & loop strips.

14. Make sure hook & loop strip is secured.

15. Flip Sleeper and place MATTRESS inside.

#### HEIGHT ADJUSTMENT:

To adjust height, remove screws on both sides (4x total). Raise legs to the desired height, making sure the height indicator numbers match on both sides. Reinsert and tighten the 4 screws.

#### WHEEL BRAKES:

To engage wheel brakes, push levers down on all 4 wheels. To disengage, pull levers up.

#### DOOR:

To open the door, push buttons on both sides and slide down. To close door, pull up on the door until you hear a "click" sound signaling it's secured.

#### BEDSIDE SLEEPER MODE:

The product can be set up as a bedside sleeper. Bedside mode is incompatible with some bed types as shown.

##### ✓ ACCEPTABLE BED FRAME

Mattress, Box Spring (if any) and Frame aligned. At least 4" clearance between frame and floor and 3.5" in depth.

##### ✗ UNACCEPTABLE BED FRAME

Frame Extended

##### ✗ UNACCEPTABLE BED FRAME

Less than 4" of space between frame and floor or 3.5" in depth.

1. Adjust height of the Bassinet so that the top of the open Bassinet door is no higher than the top of the adult bed mattress. Making sure the height indicator numbers match on both sides.

2. Attach BED STRAPS to connections underneath the Bassinet.

**STOP** Make sure the buckles are secured before proceeding to the next step.

3. Release other set of buckles, freeing up the straps to be wrapped around the adult bed.

4. Secure adult bed frame and/or box spring with both straps, and reattach buckles from Step 3.

5. Tighten both straps to securely hold the Bassinet to the bed.

**STOP** If straps are not long enough to accommodate your bed and tighten sufficiently to eliminate space between bed and bassinet, discontinue use.
