

SKIP*HOP®

ZOO crew™ dominoes

INSTRUCTIONS

For 2-4 players

Match up pictures or dots to create domino chains. The first player to use up all their dominoes wins!

SET UP

- Mix up the 28 Zoo Crew Dominoes and place them face-down in a pile. Each player takes 5 dominoes from the pile (don't let anyone see your dominoes!). Draw one domino from the pile and place it face up.

HOW TO PLAY

1. The youngest player always goes first, then play continues to the left.
2. Player 1 checks their dominoes to see if they have an image that matches one of the images on the domino that has been placed face-up. If so, place that domino so that the matching images are touching. If they have a double domino, they can place it crosswise on the chain. Players can play off any open end and choose which direction to place their dominoes in order to fit the play space.
3. If a player does not have a match, choose a new domino from the pile. If it has a match, it may be played. Otherwise, they add it to their hand.
4. Continue gameplay with each player taking turns looking for a match at any end of the domino chain.
5. Play continues until a player uses up all their dominoes (winner!) or no more matches can be made. In that case, whoever has the fewest dominoes wins.

For more advanced players, use the reverse side of the dominos and match the number of dots to create the domino chain.
